

No.	Nama Dosen	Agenda Penelitian	Judul Penelitian	Keterlibatan dengan Jaringan Penelitian*
(1)	(2)	(3)	(4)	(5)
Agenda Penelitian : Kolaborasi Internasional				
1	Yandra Arkeman	Teknik Sistem dan Industri	SMART TIN (2015)	George Mason University
2	Yandra Arkeman	Teknik Sistem dan Industri	<i>Sustainability Agroindustry (2015):</i> 1. LCA Agroindustry 2. Sistem Distribusi Agroindustri	FAO
3	Yandra Arkeman	Teknik Sistem dan Industri	LCA for rice agrifood (2015)	Tsukuba University
4	Prayoga Suryadarma	Teknologi Proses dan Bioproses	<i>Improving the utilization of Sago in Indonesia (2015)</i>	FAO
5	Endang Warsiki	Teknologi Proses dan Bioproses	<i>Quantative Effects of "Gulanula" Made from Coal Ash on Plant Growth and Biomassa. Case study : Jatropha Production (2015)</i>	<ol style="list-style-type: none"> 1. Center Research for Electrical Power Industry 2. Hokuriku Power Company 3. Nedo Nipon Energy Development Organization
6	Endang Warsiki	Teknologi Proses dan Bioproses	<i>Quantative Effects of "Gulanula" Made from Coal Ash on Plant Growth and Biomassa. Case study : sweet shorgum and sugar cane (2015)</i>	
7	Endang Warsiki	Teknologi Proses dan Bioproses	<i>Quantative Effects of "Gulanula" Made from Coal Ash on Plant Growth and Biomassa. Case study : sweet shorgum and sugar cane (2015)</i>	
8	Titi Candra Sunarti, Indah	Teknologi Proses dan Bioproses	<i>Improving the physical and mechanical properties of biodegradable foam by acid-methanol modification of starch and fiber in sago residues (2013)</i>	The Osaka Gas Foundation of International Cultural Exchanges
